

Walker&Walker - Ange Walker CV

London based with over 20 years of nail, beauty, art and fashion know how, Ange Walker began her career in nails by accident after a move to New York. It was here she discovered a natural flair for her new hobby which then led to her personally designing and building several very successful nail salons and concessions in the state. Through this Ange also began to act as a consultant in this area to a number of clients.

Now an accomplished Nail Artist with extensive nail salon, editorial and backstage experience, Ange has worked with some of the top designers, hairdressers and clients in the industry. Known for her attention to detail, flawless work and amazing bespoke nail colour, Ange is known for thinking outside of the box and continually exploring the limitless use of colour.

"I like to combine my extensive nail, beauty and fashion knowledge with artistic flair, creativity and innovation".

Ange has co-founded new innovative products revolutionary to the beauty industry such as "Rococo Gold Leaf Lacquer". The Rococo brand has gone onto receive the award for "Best Nail Polish" by Harper's Bazaar.
