### Mermaid waves

Our model Jordan's hair is extra long (another trend for summer 2023 - bonus!), but these waves look great on any locks below chin level. Long layers are ideal to bring out the definition of this style, but if you don't have them, just work with what you have - it's a versatile look. Our stylist started by applying **Superdrug Style Expertise Curl Mousse, £3.99 (125ml)** to damp hair, which he then rough-dried. Next, he used a medium-barrel curling tong (**Babyliss Titanium Brilliance Waves, £44.99** is ideal for longer hair) to create waves in 5cm sections. Finally, he rubbed **Bed Head Tigi After Party Cream, £12 (100ml)** into his hands, then teased his fingers through the waves.

### Curly bob

Model Chloe's hair is naturally curly, which gives her a head start to achieving this look. To prep, our stylist scrunched **Bed Head Tigi Curly Rock Amplifier Cream, £10 (113ml)** into the damp hair. Next he diffused hair with the **Mermaid Hair Diffuser, £58.99**, massaging the roots and scrunching hair in his hands along the way. For added structure, he touched up some of the curls with a small tong. Finally, he used his fingers to tease through **John Frieda Frizz Ease Dream Curls Nourish Crème Oil, £6.99 (100ml)** for added shine and definition.
